

# Förslag

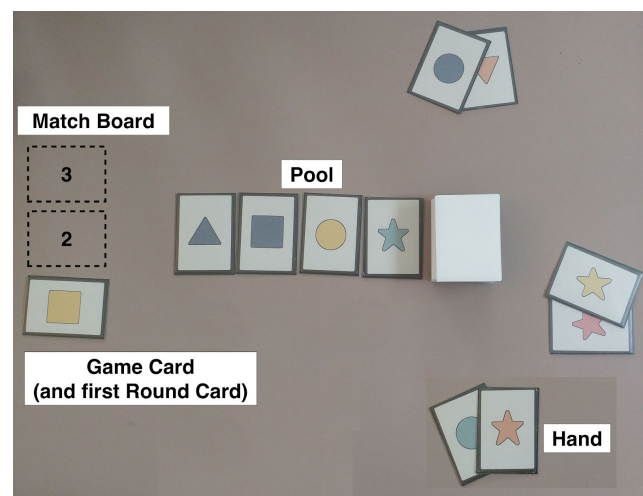

3-6 players, 10', 8+

## Goal:

Score the most points by drafting, playing, and matching cards for combinations of points.

## Setup:

1. Deal everyone two cards face-down. This is their **Hand**.
2. Place one card in the first spot of the **Match Board**. This is both the **Game Card** and the first **Round Card**.
3. Place cards in the center, face-up, equal to the number of players plus one. This is the **Pool**.

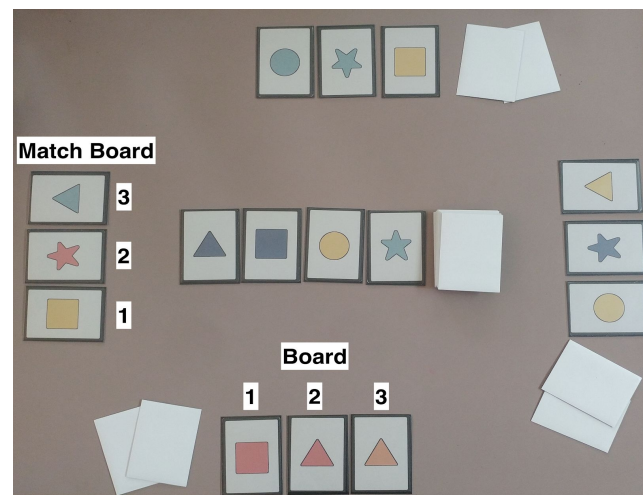

## Gameplay:

The game is played over 3-6 rounds (equal to the number of players.)

Starting with the starting player, each player will choose a card from the Pool and place it in their Hand. Then they will play a card from their Hand to their **Board**, scoring points at the end of the game (see Scoring.)

The cards on your Board will form a line from left to right - one card for each round. The left-most card is played during round 1, the next during round 2, and so on.

When everyone has chosen and played a card, the round is over:

- Move the remaining card to the Match Board; this becomes the Round Card for the next round.
- Replenish the Pool with the same number of cards from the deck.
- Rotate the starting player
- Begin the next round

After the last round, the game ends and all players add up their score. The player with the highest score wins.

## Scoring:

A “match” is when an attribute of your card (color or shape) matches an attribute of a card below. When playing a card, there are three ways to get points. If it matches both attributes, take double the points:

Match the Game Card	1 point
Match the Round Card	2 points
Match your right-hand neighbor's card	1 point

Finally, determine your most common attribute, called your **Largest Set**.

In this example, the Largest Set is “blue”, and there are 4 blue cards.

Each card in your Largest Set	3 points
-------------------------------	----------

In the second picture, the player would add up their score:

- Card 1: Matches Game Card (1) and Round Card (2)
- Card 2: Matches Round Card (2)
- Card 3: Matches Round Card (2) and neighbor (1)
- Largest Set has two cards (6)
- **Total score: 14**

Lowest score buys the next round of drinks.
